

I am an automotive journalist, commuter and satellite radio fan. In my family we have 4 voters and 3 xmradio subscriptions. We are willing to pay a subscription to achieve quality programming and xm radio is just that. Do not punish those of us who demand and are willing to pay for quality programming that local broadcasters can not and will not provide. Do not make us all adhere to the lowest common demonenator of entertainment and information. Do not stifle quality and innovation. Do not support NAB's petition 04-160.
